

src/tinypb/tinyPB_coder.h

```
graph TD; A[src/tinypb/tinyPB_coder.h] --> B[string]; A --> C[memory];
```

A diagram illustrating dependencies. At the top is a gray rectangular box with a black border containing the text 'src/tinypb/tinyPB_coder.h'. Two dark blue arrows originate from the bottom center of this box. One arrow points diagonally down and to the left to a white rectangular box with a gray border containing the text 'string'. The other arrow points diagonally down and to the right to another white rectangular box with a gray border containing the text 'memory'.

string

memory
